DETAILED ACTION

Allowable Subject Matter

1. The allowed claims are 1-29.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or fairly suggest the recitations of the specific features of the splint in claims 1, 10 and 21, including especially the following:

The primary reason for the allowance of independent claim 1, is the inclusion of the third support pad attached as a fulcrum disposed near the center of the flexible support member being disposed for distributing load to the topside of the limb and in close proximity to the joint, claimed in combination with the splint's first contact pad and second support pad.

The primary reason for the allowance of independent claim 10, is the inclusion of the third support pad attached as a fulcrum disposed near the center of the flexible support members being disposed for distributing load to the topside of the leg and in close proximity to the knee, claimed in combination with the splint's flexible support members, yoke, first contact pad and second support pad.

The primary reason for the allowance of independent claim 21, is the inclusion of the third support pad attached as a fulcrum disposed near the center of the flexible support member being disposed for distributing load to the opposing side of the limb and in close proximity to the joint, claimed in combination with the splint's flexible support member, first contact pad, and second support pad.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Doty, Naft, Weihermuller, Opel, Barney, Gilmour, Bixler, Mason, Tailor and Knoth are cited to show splints.
